COVID-19 Pandemic Impact

- **Decreased Rehab High Occupancy and Rehab Low Occupancy** due to MOH directive to temporarily cease all non-urgent and non-emergent surgeries and procedures from Apr. 20, 2021 to gradual reintroduction starting May 19, 2021 as well as lingering low occupancy from previous facility outbreaks. Also impacted by infection control requirements, including the following: temporary hold on admissions to 1 East due to declared COVID outbreak at HDS from Jun. 13-28, 2021; ongoing 24-48 hour delays for admissions awaiting negative COVID swab results and limitations on patient mobility and ability to make room for new admissions while waiting for swab results (starting Sep. 13, 2021 these requirements no longer apply to new admissions who have received both doses of a COVID vaccine). Impact on Rehab High occupancy is being mitigated by the new HDS Post COVID Rehab program launched Feb. 3, 2021.
- **Surplus (Deficit) impacted** by reduced revenues resulting from MOH directive to temporarily cease all non-urgent and non-emergent surgeries and procedures from Apr. 20, 2021 to gradual reintroduction starting May 19, 2021
