PROGRAM DESCRIPTIONS

Ambulatory Rehab Program – as part of South Niagara Health and Wellness Centre: A general adult ambulatory rehab program designed to improve functional independence for patients at risk for hospitalization or requiring a greater level of care. Located at Niagara College, Welland Campus, this program is a component of a multi-agency, interprofessional program.

Audiology & Hearing Aid Clinic: Hearing tests for adults and children (6 mos+); Hearing aid prescriptions, sales and support; Custom hearing protection; Auditory Processing Disorder evaluations (APD 7 yr+).

Augmentative and Alternative Communication (AAC) Clinic: Explores the use of technology when speech, language, or handwriting do not meet daily communication needs. Services include: assessment; prescription; application for financial assistance; and provision, training and support of communication aids for adults (18yr+).

CNS Neurology Program: For clients with a central nervous system (brain or spinal cord pathway) diagnosis, including Multiple Sclerosis, spastic paraparesis, brain or spinal cord tumours, spinal cord injury and ABI. Exceptions made for Guillain-Barre Syndrome. Team can include Physiotherapist, Occupational Therapist, Speech-Language Pathologist, Social Worker, Nurse, and Registered Dietitian.

Ontario Telehealth for Neuro Diseases: Ontario Telemedicine Program: accommodates specialized populations by incorporating nursing support for clients who require access to Medical Specialists via OTN, such as clients with neuromuscular disabilities including, but not limited to, Parkinson's disease and ALS.

Orthopedic Programs:

Amputee Program: Specialized rehabilitation services including assessment, treatment and preventative measures for lower extremity amputees.

Hand & Upper Extremity Program: For patients with arm/hand injuries or post-operative diagnoses including joint / tendon / nerve / fracture repair or reconstruction. Referrals for custom or commercially available splints accepted from specialists.

Trauma Program: For post-operative fracture management, complex trauma, and some total joint replacement procedures.

Parkinson's Rehab – Steve Ludzik Centre for Parkinson's Rehab: For clients diagnosed with Parkinson's disease. Team can include Physiotherapist, Occupational Therapist, Speech-Language Pathologist, Social Worker, Nurse, and Registered Dietitian.

Rehab & Wellness Centre (Fee for Service): Physiotherapy assessment and treatment for clients with neurological conditions, musculoskeletal injuries, fractures, and following orthopedic surgery. Services may be covered by extended health care plans.

Speech-Language Pathology: For adults (18 yr+) with recently acquired disorders of speech, language and cognitive-communication. We do not accept referrals for voice or swallowing.

Stroke Program: For clients recovering from stroke. Team can include Physiotherapist, Occupational Therapist, Speech-Language Pathologist, Social Worker, Nurse, and Registered Dietitian.
